

Evidence Presentation System (EPS)
OPERATING INSTRUCTIONS
4/14//11

If needed, connect VGA cable to laptop
Press “Power” button (camera should be in “Live” mode).
Press “Lamp” button
Set height of cart with hydraulic lever

Samsung controls

INT/EXT: This button controls switching from camera to laptop input
AF: Auto focus
UP/DOWN: Control ring = brightness
LEFT/RIGHT: Control ring = Zoom

Note: If you press an incorrect key and get a screen you don't recognize, press the **ESC** (Escape) button. **This will return you to the “normal” mode.**

Troubleshooting

No image on projector?

Check power and lens cap
Check cable connection
Check INT/EXT switch
Make sure laptop is set to send image out from external port (**Fn + F4** on our laptops).
Verify laptop resolution is standard (Court resolution is 1024 x 768).
